

Name: Janseir

Date: _____

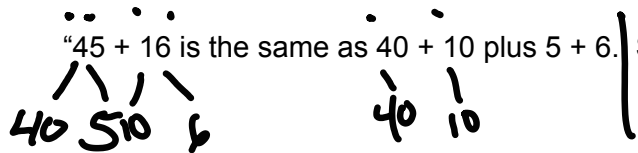

Class: _____

Teacher: _____

PROVE IT!

Agree or Disagree with the following:

" $\overset{\cdot\cdot}{4}\overset{\cdot}{5} + \overset{\cdot}{1}\overset{\cdot}{6}$ is the same as $\overset{\cdot}{4}\overset{\cdot}{0} + \overset{\cdot}{1}\overset{\cdot}{0}$ plus $5 + 6$. So, $\overset{\cdot\cdot}{4}\overset{\cdot\cdot}{5} \times \overset{\cdot\cdot}{1}\overset{\cdot\cdot}{6}$ is the same as $\overset{\cdot\cdot}{4}\overset{\cdot\cdot}{0} \times \overset{\cdot\cdot}{1}\overset{\cdot\cdot}{0}$ plus $\overset{\cdot}{5} \times \overset{\cdot}{6}$."

$$40 \times 10 = 400$$

$$40 + 10 = 50$$

$$5 + 6 = 11$$

$$5 \times 6 = 30$$

Explain AND Show your work to prove your answer.

I disagree because if you want do $40+10$ that in timetables it
will not give you the same answer as $40+10$ answer 40×10 gives
us 400 and if you can see my work on top you can see why i disagree.

Overall that is why i disagree.
